

# 10 WAYS FOR RESEARCHERS TO ENGAGE

Learn how the Center for Positive Organizations builds community, connects researchers, and generates capabilities around the realized and emerging possibilities of Positive Organizational Scholarship (POS).

**1 JOIN** the Community of Scholars

Engage with 625+ scholars working on Positive Organizational Scholarship topics at research institutions around the world.

**4 ADVANCE** the field of research

Participate in our biennial POS Research Conference to share and advance qualitative and quantitative research.

**2 MEET** colleagues at AOM

Attend our annual Gathering of POS Scholars breakfast to build community and generate energy about research possibilities.

**5 SHARE** your early-stage research

The Adderley Positive Research Incubator offers researchers a safe space (virtually) to share ideas in development.

**8 INTRODUCE** students to positive work/organizations

Our database of nearly 30 syllabi help students to embrace human and social potential at work and in organizations.

**3 ENGAGE** with a POS microcommunity

Take a deeper dive into meaning, positive relationships at work, or equity and diversity.

**6 SUBMIT/NOMINATE** an outstanding POS article

Award for Outstanding Published Article in POS submissions address key POS issues/themes, but may be based in any discipline.

**9 USE** POS resources in the classroom

Integrate a tool or teaching case to help students learn to solve pressing organizational challenges.

**7 FOLLOW** our research

Sign up for our newsletter, subscribe to our RSS feeds, or follow us on Twitter or Facebook to learn about new research and events.

**10 TEACH** through a positive lens

Reference the materials shared in past AOM workshops on teaching with a POS perspective.
